Summary of Financial Assistance Policy

The above entities (the “Organization”) have a commitment to and reverence for individual human dignity and the common good, a special concern for and solidarity with persons living in poverty and other vulnerable persons, and a commitment to distributive justice and stewardship. In furtherance of these principles, the Organization provides financial assistance for certain individuals who receive emergency or other medically necessary care from the Organization. This summary provides a brief overview of the Organization’s Financial Assistance Policy, or “FAP.”

Who Is Eligible?

Under the FAP, an eligible patient with income less than or equal to 250% of the Federal Poverty Level (“FPL”) will receive a 100% charity care write-off on the portion of the charges for which he or she is responsible, and an eligible patient with income above 250% of the FPL but not exceeding 400% of the FPL will receive a sliding scale discount on such charges. Patients who are eligible for financial assistance will not be charged more for eligible care than the amounts generally billed to patients with insurance coverage for emergency and other medically necessary care.

What Services Are Covered?

The FAP applies to emergency and other medically necessary care. These terms are defined in the FAP. Elective services are not covered by the FAP.

How Can I Apply?
