Who Is Eligible?

You may be able to get financial assistance. Financial assistance is generally determined by your total household income as compared to the Federal Poverty Level (FPL). If your income is less than or equal to 250% of the FPL you will receive a 100% charity care write-off on the portion of the charges for which you are responsible. If your income is above 250% of the FPL but not exceeding 400% of the FPL, you may receive discounted rates on a sliding scale. Patients who are eligible for financial assistance will not be charged more for eligible care than the amounts generally billed to patients with insurance coverage.

What Services Are Covered?

The FAP applies to emergency and other medically necessary care. These terms are defined in the FAP. Elective services are not covered by the FAP.
