HOW WE USE AND DISCLOSE YOUR PROTECTED HEALTH INFORMATION

Generally, we may not use or disclose your PHI without your written authorization. However, in certain circumstances, we are permitted to use your PHI without authorization. The following categories describe different ways that we may use and disclose your PHI without your written authorization. For each category of uses or disclosures, we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose your PHI without your written authorization should fall within one of these categories.

WE MAY USE OR DISCLOSE YOUR HEALTH INFORMATION FOR TREATMENT

In order to enhance your treatment while in our care, and better coordinate your health care and related services after discharge, we may provide your PHI (including summaries of your care, prescriptions, lab work and x-rays) to your health care providers. These providers may include physicians, nurses, technicians, medical students or other medical personnel who are involved with your care. In some cases the sharing of your PHI with other health care providers and hospitals may be done electronically through an electronic health information exchange ("HIE") operated by Saint Thomas Health or a business associate. By using electronic means, we may be able to make your PHI available to those who care for you in a more timely and effective manner, and thus help to improve the coordination of your care. Contact the Corporate Privacy Officer at 615-284-5488 with any questions or concerns.

We may otherwise use your PHI, as needed, to facilitate the operation of our facility. Further, Saint Thomas Medical Partners and health care professionals with staff privileges may share medical information with each other and with participants in our organized health care arrangements (e.g., MissionPoint Health Partners) for treatment, payment or health care operations.
