

Southeast Michigan's Leading Provider of Health Care Ascension Cancer Care 2018 Annual Report – Southeast Michigan

Ascension, in southeast Michigan operates seven hospitals and over 100 healthcare facilities. As the leading faith-based health care system in Michigan, Ascension is one the leading not-for-profit health care systems in the United States.

Committed to delivering compassionate, personalized care, the Ascension Michigan cancer care teams provide patient focused cancer prevention, screening, detection, treatment and support. Our cancer programs are accredited through the American College of Surgeons (ACoS) Commission on Cancer (CoC). The CoC is dedicated to improving survival and quality of life for cancer patients through standard-setting, prevention, research, education, and the monitoring of comprehensive quality care.

Both Ascension St. John Hospital and Ascension Providence Hospital underwent surveys for the ACoS/CoC reaccreditation in November 2017. Ascension St. John Hospital received full accreditation. Ascension Macomb-Oakland Hospital underwent their reaccreditation survey in May 2018 and received 3-year reaccreditation with commendation, silver ranking.

The Ascension Michigan Community Health Assessment identified breast, lung, colorectal and prostate cancer as the disease sites most frequently diagnosed in the southeast Michigan geographical area. The areas assessed were Metropolitan Detroit, Wayne, Macomb, Oakland, St. Clair, and Livingston Counties. The community outreach plan was to increase cancer awareness and help the community identify risk factors.

According to the National Cancer Institute prevention and screening represent the twin pillars of our preemptive defenses against cancer. Cancer prevention includes efforts to detect and treat precancerous conditions or cancers at their earliest, most treatable stages, and the prevention of new, or second primary cancers in survivors.

Breast Screening - 2018
Total number of screening mammograms and biopsies performed.

| Breast Screening | Ascension St. John Hospital | Ascension Macomb-Oakland Hospital | Ascension Providence Hospital |
|----------------------|-----------------------------|-----------------------------------|-------------------------------|
| Screening Mammograms | 27,714 | 7,599 | 35,444 |
| Biopsies Performed | 1,347 | 344 | 1,430 |

Mobile Mammography - 2018

The mobile mammography program follows ACR guidelines and continues to grow and increase access of patients to breast health care. The mobile coach is equipped with a television so as patients wait for their mammogram, educational facts are playing on the TV. The information includes healthy lifestyle choices, the importance of cancer screenings, detection, and prevention. As the patient leaves the coach after their mammogram, they are provided with the following: How to perform a breast self-exam shower card, *How to prevent and Detect Cancer* booklet, and contact information for the mobile coach coordinator.

| | Ascension St. John Hospital |
|--|-----------------------------|
| Screening Mammograms | 1,987 |
| Received 1 st /Baseline Mammogram | 212 |
| Required Additional Follow-up Services | 262 |
| Diagnosed With Breast Cancer | 8 |

Low Dose CT Lung Screening - 2018

In response to the National Lung Screening Trial (NLST), we developed a lung cancer screening program with the objective to increase diagnosis at an earlier stage providing a better opportunity for curative treatment.

| | Ascension St. John Hospital | Ascension Macomb-Oakland Hospital | Ascension Providence Hospital |
|----------------------------------|-----------------------------|-----------------------------------|-------------------------------|
| # of Low Dose-CT Lung Screenings | 509 | 585 | 1,107 |

Colorectal Screening - 2018

Partnered with the American Cancer Society and the Macomb and Wayne County Health Departments to offer the FLU-FIT home tests to patients ages 50 – 75 who have not had a colonoscopy within the past 10 years and/or have not completed a colorectal cancer screening test (FIT or FOBT) in the last year. The home tests were distributed at the time of their annual flu shots.
