Introduction

As one of the leading non-profit and Catholic health systems in the United States, Ascension is committed to delivering compassionate, personalized care to all, with special attention to persons living in poverty and those most vulnerable.

Ascension Saint Joseph

As a Ministry of the Catholic Church, Ascension Saint Joseph is a non-profit hospital that provides medical care to Chicago and the surrounding communities. Ascension Saint Joseph is part of Ascension Illinois which operates 15 hospital campuses and 230 sites of care. The organization includes more than 600 providers as part of Ascension Medical Group, as well as 17,000 associates.

Serving Illinois since 1869, Ascension Saint Joseph is continuing the long and valued tradition of addressing the health of the people in our community, following in the footsteps of the legacy of the Daughters of Charity. Saint Joseph was the first Catholic hospital in Chicago and is a full service health care facility licensed for 361 beds, located on Chicago's North side.

Other Benefits:

Listed above are “Other Community Benefits.” These are benefits not detailed in the Annual Non-Profit Hospital Community Benefits Plan Report instructions.

Other Community Benefits categories include Community Building Activities and Community Benefit Operations. The IRS 990 Schedule H instructions and the Catholic Health Association (CHA) publication, A Guide for Planning & Reporting Community Benefit, both identify these categories in their materials.

Listed below is the detail associated with these categories.

Community-Building Activities

Community-building activities improve the community’s health and safety by addressing the root causes of health problems, such as poverty, homelessness and environmental hazards. These

activities strengthen the community's capacity to promote the health and well-being of its residents by offering the expertise and resources of the health care organization. Costs for these activities include cash and in-kind donations and expenses for the development of a variety of programs and partnerships. This category includes activities such as:

- Physical improvements and housing
- Economic development
- Community support
- Environmental improvements
- Community leadership development & training
- Coalition building
- Advocacy for community health improvement & safety
- Workforce development

Community-building is documented on Part II of the IRS 990 Schedule H.

Community Benefit Operations

Community benefit operations include costs associated with assigned staff and community health needs and/or assets assessments, as well as other costs associated with community benefit strategy and operations. This category includes items such as:

- Assigned staff
- Community health needs/health assets assessments
- Other resources

Community benefit operations are documents on Part 1 7a of the IRS 990 Schedule H.

Financial Assistance

As part of our faith-based mission, Ascension Illinois is dedicated to helping the most vulnerable and treating everyone with compassion, dignity and respect. Financial assistance reflects our commitment to and reverence for individual human dignity and the common good, our special concern for and solidarity with persons living in poverty and other vulnerable persons, and our commitment to distributive justice and stewardship.

Community Health Needs Assessments (CHNA)

Federal law requires tax-exempt hospitals to conduct periodic Community Health Needs Assessments (CHNAs) and adopt plans to meet assessed needs. In order to comply with federal tax-exemption requirements in the Affordable Care Act, a tax-exempt hospital facility must: 1) conduct a community health needs assessment every three years, 2) adopt an implementation strategy, and 3) report how identified needs not being addressed by the hospital are still being targeted by other community organizations.

Each Ascension Health hospital ministry follows the following guidelines for Community Health Needs Assessments (CHNAs):

- Each ministry will conduct a CHNA every three years by involving community partners and members representing diverse sectors within the community.
- There will be an annual review and update of the ministry's CHNA Implementation Strategy highlighting the outcomes of community benefit programs that target prioritized needs.
- Monthly reporting of community benefit is required to local and system leadership.

Complete Community Health Needs Assessment reports for each hospital are made publicly available at: <https://healthcare.ascension.org/chna> and paper versions can be requested at Ascension Saint Joseph Chicago's Administration Office.

Prioritized Community Needs

Included in Code Section 501(r)(3) is the requirement that hospitals must provide a description of the process and criteria used to determine the most significant health needs of the community identified through the CHNA, along with a description of the process and criteria used to determine the prioritized needs to be addressed by the hospital. Accordingly, Ascension Saint Joseph Chicago used a phased prioritization approach to identify the needs with the hospital community. The first step was to determine the broader set of identified needs. Through the CHNA assessment, identified needs were then narrowed to a set of significant needs which were determined most crucial for community stakeholders to address.

Following the completion of the CHNA assessment, significant needs were further narrowed down to a set of prioritized needs that the hospital will address within the implementation strategy. To arrive at the prioritized needs, Ascension Saint Joseph Chicago used the following process and criteria:

	<p>Scope of Problem:</p> <ul style="list-style-type: none"> • How severe or prevalent is this issue in the community? • How many are impacted?
	<p>Disparities & Equity:</p> <ul style="list-style-type: none"> • Are there health disparities that exist? • Can we address those in an impactful way?
	<p>Feasibility:</p> <ul style="list-style-type: none"> • What is our capacity to make progress (staffing resources, financial resources, other support, etc.)? • Are there known interventions that exist?
	<p>Momentum:</p> <ul style="list-style-type: none"> • Is there community readiness and/or political will to address this issue?
	<p>Alignment:</p> <ul style="list-style-type: none"> • Do we have community partners that we can align with on this issue? • Do we need to build new relationships?

Preliminary community need prioritizations recommendations were presented to a group of internal and external stakeholders for their review. Recommendations were discussed and voted upon to determine the prioritized needs for the hospital community.

Following the completion of the current CHNA, Ascension Saint Joseph has selected the prioritized needs outlined below for its Implementation Strategy. Ascension has defined “prioritized needs” as the significant needs which have been prioritized by the hospital to address through the three-year CHNA cycle:

- **Social and Structural Determinants of Health -**
 - **Transportation (SDoH - Housing & Transit):** This need was selected because lack of transportation creates additional barriers to access health care especially for the elderly,

low-income, and disabled persons. In the Community Resource Directory, transportation for healthcare was the top seventh most common searched need.

- **Economic Vitality and Workforce Development (SDoH - Education):** This need was selected as education is an important determinant of health because poverty, unemployment, and underemployment are highest among those with lower levels of educational attainment. Higher levels of poverty are primarily concentrated in the far Northwest, West, and South sides of the city and county. Additionally, workforce needs and challenges, specifically for healthcare, were listed as high priority in the CHNA stakeholder listening sessions.
- **Access to Care and Community Resources -**
 - **Resources, Referrals, Coordination, and Connection to Community-Based Services (Access to Care):** This need was selected because in the CHNAs focus groups, access to needed healthcare and community resources are named as critical components to achieving the best health outcomes.
 - **Timely Linkage to Quality Care, including Behavioral Health and Social Services (Access to Care):** This need was selected because Health insurance is the primary way that individuals access the healthcare system in the United States with 56% of Cook County residents receiving coverage through employer-based plans. Eleven percent of the population under age 65 are without health insurance in Cook County compared to 9% in Illinois. Eighteen percent (18%) of respondents to the community survey reported a loss of employment because of the pandemic, 6% reported a loss or reduction in insurance coverage, and 7% reported a lack of access to basic medical care. This need was voted the number one need in this category in the Ascension Saint Joseph - Chicago prioritization process.
- **Prevention and Treatment of Priority Health Conditions: Mental Health, Substance Use Disorders -**
 - **Mental Health (Mental & Behavioral Health):** This need was selected because 39% of the community input survey respondents identified mental health as one of the most important health needs in their communities. Forty percent (40%) of community survey respondents identified access to mental health services as being needed to support improvements in community health. The self-reported adult depression rates in Cook County are higher (17.3%) than national averages (10%). Similarly, youth depression has been on the rise. This need was voted in the top two of this category for the Ascension Saint Joseph - Chicago prioritization process.
 - **Substance Use Disorders (Mental & Behavioral Health):** This need was selected because mental health and substance use (behavioral health) were two of the most discussed topics within the CHNAs focus groups. From the Community Input Survey, 12% of the respondents from Saint Joseph - Chicago services area identified substance use as a top community health issue. There were 4,467 drug induced overdose deaths in Cook County between 2018-2020.

Ascension Saint Joseph - Chicago understands the importance of all the health needs of the community and is committed to playing an active role in improving the health of the people in the communities it serves. For the purposes of this implementation strategy, Ascension Saint Joseph - Chicago has chosen to focus its efforts on the priorities listed above.

Acute Community Concern Acknowledgement

A CHNA and Implementation Strategies (IS) offer a construct for identifying and addressing needs within the community(s) it serves. However, unforeseen events or situations, which may be severe and sudden, may affect a community. At Ascension, this is referred to as an acute community concern. This could describe anything from a health crisis (e.g., COVID-19), water poisoning, environmental events (e.g., hurricane, flood) or other event that suddenly impacts a community. In which case, if adjustments to an IS are necessary, the hospital will develop documentation, in the form of a SBAR (Situation-Background-Assessment-Response) evaluation summary, to notify key internal and external stakeholders of those possible adjustments.

Progress: During the tax year, a warm hand-off program began at the hospital which resulted in 7 screenings and persons receiving treatment.</p>
Community Support (Investing)	<p>Strategy: Standardization of Community Investment Alignment Progress: Guidelines for community investment criteria to guide outgoing contributions to the community were established across Ascension hospitals late in the fiscal year that became effective July 1, 2023. A system-wide goal of 90% of all community investments must align with at least two of six criteria points including: Strategic Priority, Community Health Needs Assessments, Social Determinants of Health, Identified health disparities within the community, health equity improvement and Laudato Si' environmental improvements.</p>
Diversity, Equity & Inclusion (DEI)	<p>Strategy: ABIDE Framework Progress: At Ascension, the ABIDE (Appreciation - Belongingness - Inclusivity - Diversity - Equity) framework is used to help uncover what we need to review, dismantle, or rebuild in our policies, practices and ways of working so that we can eliminate what contributes to or perpetuates disparities, and inequities, including systemic racism. This work is ongoing and begins with leadership commitment through words and actions.</p> <p>The Ascension Illinois ABIDE Engagement Committee was formed, including representatives from each hospital and major operational function. This Committee met monthly throughout FY23 and engaged in group activities and training to support members' work as ambassadors for ABIDE in their respective roles.</p> <p>During FY23, established ABIDE ministry councils at the hospital level ensured integration and alignment with the Ascension Illinois ABIDE Engagement Committee and with Ascension national strategic direction, our Mission and Values and our Essential Behaviors within our organizations.</p>

	<p>Each hospital ABIDE council focuses on cultural/workforce related initiatives, patient/consumer related initiatives, supplier/partner diversity related initiatives and community related initiatives.</p> <p>Strategy: Cultural Trainings Progress: In FY23, Ascension developed and implemented the training module: ABIDE in Action Exploring Equitable Interactions in Healthcare. Over 400 leaders at Ascension have taken this training. Additionally, there is a training module on implicit bias and ABIDE that is required for new hire and annual training for all Ascension associates.</p>
<p>Diverse & Local Purchasing</p>	<p>Strategy: Diverse Procurement Spend Progress: Ascension has set guidelines toward measurable success of supplier diversity. Specific numeric goals are currently being evaluated for FY24.</p> <p>Ascension guidelines are still being adopted, but include:</p> <ol style="list-style-type: none"> 1. Maintaining a portfolio of contract categories/areas for diverse-owned suppliers consideration Engaging the Senior Manager, Diversity and Sustainability as soon as a business need for contracting in said portfolio is identified to provide sufficient time to identify potential opportunities for diverse-owned suppliers to participate in the process. 2. Identifying suppliers to include in the sourcing process and to evaluate diverse-owned suppliers where possible. 3. Ensuring diverse-owned supplier classifications (i.e., minority, women, veteran or small) are flagged appropriately in the contract management system. 4. Consistent monitoring of metrics and analytics to evaluate and assess the effectiveness of the program and compliance with this policy. 5. Include diverse-owned suppliers who can meet The Resource Group requirements in procurement opportunities. 6. Participate in outreach events for diverse-owned suppliers to inform them of contracting opportunities available for them to participate in the procurement of products and services by The Resource Group.

	<p>Ascension Illinois has worked with the local community organization, West Side United, to increase opportunities for diverse suppliers in the community. West Side United connects diverse suppliers on the west-side of Chicago with healthcare organizations for service procurement.</p>
<p>Diverse & Local Hiring</p>	<p>Strategy: SOAR (Strengths, Opportunities, Aspirations and Recommendations) Ascension Illinois' Associate Engagement Survey surrounds the ABIDE hallmarks. Our SOAR action planning focuses on efforts for improvement in each of the ABIDE hallmarks. The Associate Engagement Survey and the SOAR process is conducted and performed annually with evaluation and modified throughout the year. This process is guided by Executive and Senior Leadership with implementation and evaluation by Department Leaders.</p> <p>Strategy: Workforce Development A new sub-department within Human Resources was created in FY23 to improve workforce development in the communities we serve through partnerships, pipeline creation and other methodologies. Additionally, organization-wide the VOCARE program was introduced as an internal mobility and career development program for entry level associates.</p>
