

Our Mission

Rooted in the loving ministry of Jesus as healer, we commit ourselves to serving all persons with special attention to those who are poor and vulnerable.

Our Catholic health ministry is dedicated to spiritually centered, holistic care which sustains and improves the health of individuals and communities.

We are advocates for a compassionate and just society through our actions and our words.

Our Vision

We envision a strong, vibrant Catholic health ministry in the United States which will lead to the transformation of healthcare. We will ensure service that is committed to health and well-being for our communities and that responds to the needs of individuals throughout the life cycle. We will expand the role of laity, in both leadership and sponsorship, to ensure a Catholic health ministry of the future.

- Learning new things
- Memory
- Monitoring finances/checkbook
- Managing your medications
- Using the computer
- Dressing or bathing
- Cooking or cleaning
- Driving
- Walking
- Balance
- Vision
- Strength or coordination
- Resuming work or hobbies

Specialty program for individuals with Parkinson's disease

LSVT BIG® and LSVT LOUD® are evidence-based programs for people with Parkinson's disease and other neurological conditions.

LSVT LOUD® (Lee Silverman Voice Treatment) is delivered by a certified Speech Therapist and LSVT BIG® is delivered by a certified Physical/Occupational Therapist.

Both programs are appropriate for people with Parkinson's disease from early to late stages. Even those newly diagnosed can benefit before there are noticeable changes in posture, balance, movement, and voice. It is never too late to start!

Neurological rehab at Ascension Saint Agnes also offers:

- SMART EquiTest® for balance and/or dizziness rehabilitation
- Our Driving Evaluation Program assesses and promotes your ability to drive independently.
- PrimusRS is used to regain function, strength and coordination in arms and legs.

The Ascension Saint Agnes Rehab Services team will work with you to achieve success

Highly qualified treatment team

Ascension Saint Agnes has a highly skilled multidisciplinary team of occupational therapists, physical therapists, speech language pathologists, and an audiologist, who work together to create a specialized rehab plan to meet your needs. We use advanced technology and state-of-the-art equipment to assess how to help you complete the activities important to you.

Commonly treated diagnoses

Our therapists have advanced training and treat people with a variety of neurological diagnoses, including:

- Stroke
- Parkinson's disease
- Multiple sclerosis
- Brain injury
- Guillain-Barre
